Production Discontinuance of On-board Type Power Supplies

We hope this letter finds you well, and we thank you for being our loyal customer.

We would like to announce that we decided to discontinue on-board type ZS/ZW series as follows.

We understand that this discontinuance will cause you a lot of trouble, but we will do our utmost efforts to improve our customer services through streamlining and integrating our products, developing new products and strengthening our mass production capabilities.

Your understanding would be highly appreciated.

1. Last order Date: April 30, 2008
2. Models to be discontinued

Please see the following table for the models to be discontinued and the models recommended as replacements. Please consider our recommendation for replacement models when you replace or introduce a new power supply.

Table 1. Models to be Discontinued and Recommended Replacements

Name of the Series	Models to be Discontinued	Recommended Replacement
ZS Series	ZS1R5	ZUS1R5, SUS1R5, SUCS1R5
	ZS3	ZUS3, SUS3, SUCS3
	ZS6	ZUS6, SUS6, SUCS6
	ZS10	ZUS10, SUS10, SUCS10
ZW Series	ZW1R5	ZUW1R5, SUW1R5, SUCW1R5
	ZW3	ZUW3, SUW3, SUCW3
	ZW6	ZUW6, SUW6, SUCW6
	ZW10	ZUW10, SUW10, SUCW10

* 1. As for the semi-standard units and minor change units (X version), please consult us separately.

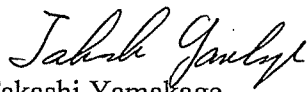

* 2. The attachments PCB has been prepared, of which pin alignment will be the same as ZS and ZW series, mountable SUCS and SUCW series.

3. Reasons for Discontinuance

Production volume of these products has declined and we would like to reorganize our product series. Furthermore, increasing number of parts used in these series has been discontinued.

If you have any question, please contact our sales representatives.

Sincerely yours,

Takashi Yamakage
Executive Director
